

YEARLY CHILDHOOD EDUCATION

Children Discover All Kinds of New Worlds at the YMCA

YMCA Early Childhood Education programs are designed to expand each child's imagination and encourage lifelong, positive values. We are committed to developing healthy, well-rounded children while supporting families. Offering a consistent adult presence and a structured, enriching day complete with age-appropriate curricula, we provide a safe environment that promotes school-readiness and teaches the importance of our core values: caring, honesty, respect and responsibility. We offer flexible enrollment options at an affordable price.

Child Care

State-licensed full-service child care centers at both our Mt. Laurel and Riverfront facilities offer care for children from 8 weeks to 5 years of age. They operate year-round and offer the flexibility of half or full days, two, three or five days a week - with hours from 6:30am to 6:30pm to meet the needs of today's working parents.

Learning Tree Preschool (Mt. Laurel)

This state-licensed nursery school program operates September through mid-June in our Mt. Laurel YMCA. Serving children from 3 to 4 years of age, we provide developmentally appropriate curriculum that includes circle time, free choice activities, snack and new units each month. Swim lessons are provided as part of some classes.

Pre-K and Extended Kindergarten

These state-licensed full and half day programs prepare children for kindergarten and provide care for kindergarten children enrolled in school during the time they are not in class.

Mary Robert School (Moorestown)

This program takes place on site at Mary Roberts School in Moorestown.

Bernice Young Elementary (Burlington Twp)

This program takes place at the Riverfront YMCA. Children are bused to/from school.

Building Strong Kids,
Families and Communities

Catch the Spirit!

ACTIVATE AMERICA™

Strong Kids Financial Assistance Available!

The YMCA of Burlington County is the not-for-profit 501(c)(3) charitable corporation that is building strong kids, families and communities through programs designed to improve an individual's spirit, mind and body.
